We service: Mechanical, automatic, chronograph, Co-Axial and quartz watches.

All complete overhaul services come with 1 year warranty.

A mechanical watch contains on average 150 parts, some of which experience high forces on a continuous basis. To keep the performance of your watch at its best and prevent wear and tear, it will need to be regularly serviced: usually every three to five years. If you're unsure about when your watch needs servicing or have a problem with your watch that needs repairing, we can help.

Important! We cannot give watch repair quote over the telephone or email, it needs visual inspection.

- Overhaul, service, maintenance or restoration work
- Battery change, water resistant watches; re-sealed and pressure tested - Glass replacement
- Winder, main-spring replacement

We do not repair COPY or REPLICA watches!

Large selection of Italian made leather straps. We also stock stainless steel metal bands and rubber straps.

We specialised in the following watch brands:

Omega, Longines, Tag Heuer, Raymond Weil, Rolex, Tudor, Breitling, Tutima, Glashutte,

□
